PROFILE

Accomplished and forward-thinking **.NET Developer** with a strong foundation in **Angular** and **.NET Core MVC** development. Adept at building high-performance, user-friendly web applications that streamline business operations and deliver exceptional user experiences. Leveraging **Angular (12+)** to craft dynamic, interactive front-end interfaces, and **.NET Core** for building scalable, secure back-end systems. Proven expertise in developing clean, maintainable code and integrating best practices such as **RESTful APIs** and **Microservices** workflows. Passionate about problem-solving and continuously evolving in line with the latest technological advancements to drive innovation and create solutions that matter.

PROFESSIONAL EXPERIENCE

Signature IT Software Designers Pvt Ltd, Software Developer 10/2024 – present | Lucknow, India

- Developed scalable web applications using .NET 8, ASP.NET Core MVC, and MSSQL.
- Built dynamic UIs using Angular, HTML5, and CSS3 to ensure responsive design.
- Hands-on experience in OOPS concepts, WCF, and Web APIs
- Implemented automated unit testing and optimized performance through C# and SQL tuning.
- Collaborated in Agile environments with cross-functional teams for efficient development cycles.
- Integrated third-party web controls and applied design patterns to enhance code maintainability.

Vibrant IT Solutions Pvt. Ltd., .NET Full Stack Developer 10/2023 – 09/2024 | Lucknow, India

- Developed enterprise applications using .NET Core and Angular 12+.
- Worked on AWS serverless development and integrated cloud solutions.
- Utilized microservices architecture for scalability and modularity.
- Applied design patterns and enhanced performance through C# and SQL optimization.
- Delivered secure and efficient APIs using RESTful Web Services.

Rakle IT Solutions, .NET Developer 06/2022 – 09/2023 | Lucknow, India

- Began a career in the tech industry at Rakle IT Solution, gaining exposure to diverse technologies before
- Worked extensively on PHP and WordPress, enhancing technical proficiency in web development and
- Developed a solid foundation in programming, problem-solving, and delivering client-focused web
- Demonstrated adaptability by working on multiple technologies and projects, leading to a strategic focus

SKILLS

Programming Languages

- C++, C#, JavaScript, HTML5, CSS3, TypeScript, LESS

Tools & Platforms:

- Git, Visual Studio 2022, VS Code, SSMS 2020
- RESTful APIs, SOAP APIs, Microservices

Databases

- SQL, PL/SQL, Entity Framework, ADO.NET Core

Libraries/Frameworks

- .NET 8, .NET Core, ASP.NET Core MVC, Angular (12+), Bootstrap, jQuery

Testing Frameworks

- Automated Unit Testing (XUnit, Unit Testing)

Cloud & Methodologies

- Azure, AWS (Basic knowledge)
- Agile & Scrum Methodology

EDUCATION

Nehru Gram Bharati University,
Bachelors of Computer Applications

Prayagraj, India

PROJECTS

Bajaj MIS, *Dot Net, MVC Framework, C#, HTML5, CSS3, JQuery, Javascript, SQL*

- Developed a comprehensive Management Information System (MIS) for Bajaj to streamline operations
- Implemented modules for efficient management of factory data, including production, quality control,
- Established an employee management system to track details, attendance, and performance metrics.
- Utilized .NET MVC, MS SQL, JavaScript, jQuery, HTML5, CSS3, and C# technologies for development
- Enhanced decision-making through data-driven insights.
- Expertise in **Dapper** for fast and efficient database access, enhancing query performance and reducing overhead.

Olympus Group of Hospital, *.NET Core, Entity Framework, Razorpay, Angular 12*

- Built a Health Card system using .NET 8, Entity Framework, and Razorpay.
- Created responsive front-end using Bootstrap, JavaScript, and Angular 12+.
- Integrated secure payment gateways with Razorpay.

Mandi UP(ERP), *C#, MVC Framework, Dot Net, HTML5, CSS3, Javascript, JQuery, Bootstrap, SQL*

- Designed and developed a robust ERP system called "Mandi" to streamline various business processes.
- Implemented an E-Office module for digitizing office operations, reducing paperwork, and enhancing efficiency.
- Developed a comprehensive attendance system to track employee attendance and manage work hours
- Integrated Budget Management to plan, allocate, and monitor financial resources effectively.
- Created a Salary Management module to handle payroll processing, ensuring timely and accurate salary disbursements.
- Developed Account Management features for maintaining financial records, tracking transactions, and generating reports
- Implemented Sale Management to oversee sales processes, track orders, and manage customer relations.
- Designed a Material Management system to handle inventory, procurement, and supply chain operations
- Added Employee Tracking functionalities to monitor employee performance and manage workforce logistics.

VIB HRMS, *.NET, MVC Framework, C#, HTML5, CSS3, JavaScript, jQuery, Bootstrap, MS SQL*

- .NET, MVC Framework, C#, HTML5, CSS3, JavaScript, jQuery, Bootstrap, MS SQL
- Automated core HR processes including employee onboarding, leave management, payroll processing,
- Implemented robust user access controls and data security features to maintain system integrity and
- Collaborated closely with HR personnel to gather requirements and translate them into functional
- Optimized performance by streamlining database interactions using MS SQL.

CERTIFICATES

- Develop an ASP.NET Core web app that consumes an API - Microsoft 
- Problem Solving - HackerRank 
- Rest API (Intermediate) Certificate - HackerRank
